

## ONE Advisory announces five promotions within its Financial Reporting and Transactional Support team

Michael Butler, Head of Financial Reporting and Transactional Support at ONE Advisory said:

“I am delighted that we are announcing five senior promotions on the team. It is vital that we recognise and reward our leaders and potential future leaders and bring individuals through the ranks to ensure fresh thinking and new ideas. These promotions are designed to achieve that.

Melanie joined ONE Advisory in 2018 as a trainee and has rapidly progressed to Director level due to exceptional client service and is always willing to go the extra mile. She is a great asset to the team. Melanie becomes the first ONE Advisory Director to have qualified with the firm and I hope she will be the first of many.

Dimitri joined us at the beginning of 2022 as a hugely experienced IFRS expert and we fortunate to have him as part of our team, given his extensive experience of providing technical accounting advisory services to Plc's or companies seeking a listing in London.

Jas joined us in 2020, Max and Jasmine joined us in 2021, and all three have brought energy, enthusiasm and ideas to their roles which have helped us to grow significantly over recent years”.
